

Vielmetti-Peters Orienteering Challenge

Directions

1. Start at the bench.
2. Dial in the compass reading for Target 1.
3. Pick out a landmark, and walk the designated number of paces to Target 1.
4. When you arrive at the destination, read the clue. This will help you figure out what the object is that you're looking for. (This will also be marked with an orange flag.)
5. Write down the object/answer to the clue, then continue on to Target 2.
6. If you can't find a target, go back to the previous one and try again.
